# READY TO SLAY YOUR BOHO LOCS!?!

The FIRST thing you need to do is visit the Boho AFTER-CARE GUIDE at

[boholocs.com/pages/after-care](https://boholocs.com/pages/after-care)

**THE CODE IS: BOHOCARE**

We have created just for you, a guide that walks you through how to best prepare your hair for install, how to install, take out, and get the best out of your Boho Locs.

Even if you have purchased from us before or visited the after-care guide before, we advise that you check it out again right now, as we are updating videos and content regularly.

## COMMONLY ASKED QUESTIONS

### **I'm allergic to synthetic hair extensions, can I still install the locs?**

No worries, we got you!

If you have a known allergy to synthetic hair then you can do an ACV (Apple Cider Vinegar) rinse on the hair to remove the chemicals that would otherwise cause irritation.

### **Can you install the locs individually?**

We do not recommend our locs for individual crochet installation.

We recommend installing traditional crochet in the back, and individual crochet in the front with double wrapping to keep it secure.

### **Can I cut the locs?**

We do not recommend cutting them as cutting them as this can disrupt the wave and curl pattern of the Locs.

## How to do an ACV rinse?

- 1) Mix a solution of 1 part ACV to 3 parts cool water in a basin.
- 2) Leave the hair to soak for approximately 30-45 mins.
- 3) Rinse the locs thoroughly with cool water.
- 4) Leave locs to air dry and then install!

## Can I go swimming with the locs?

Yes! It's totally ok to swim regularly in the BOHO GODDESS Locs.

But we don't recommend regularly swimming in the Mermaid Locs although a dip on a beach holiday is more than ok!

Do remember that if you do get the locs wet in the sea or the pool to rinse them out thoroughly and let them air dry completely before sleeping on them!

## A SPECIAL TIP FOR OUR MERMAID LOC SLAYERS

**MERMAID LOCS ARE A COMBINATION OF LOCS AND WAVY HAIR SO REQUIRE A LITTLE MORE MAINTENANCE THAN JUST LOCS.**

**Here are 3 key hacks on what you need to do to take care of them:**

- 1) After your install the first thing you need to do is to thoroughly wet your Mermaid strands. I normally do this using a spray bottle.
- 2) The next thing you need to do is add some conditioner to the now wet strands.
- 3) Then follow up with some gel on top of the conditioner. Let this all dry and you will have fuss free mermaid locs.
